Certificate of Destruction

Date: October 21, 2022

Client: The ReCollective

On October 7, 2022 Triangle Ecycling received from the above-referenced client, the following computer and related electronic equipment:

- QTY 1 - 2.5" IDE HDD
- QTY 2 - 3.5" IDE HDD
- QTY 2 - 2.5" SATA HDD
- QTY 1 - 3.5" SATA HDD

We have destroyed all data on the drives by either drilling into and destroying the interior disk or through using NIST 800-88 standard erasing procedures, permanently overwriting all addressable sectors on each storage drive.

We hereby certify the destruction of data on all hard drives, solid state drives, and other memory devices. They will be reused, if possible, or shredded along with other ewaste and ethically recycled pursuant to rigid R2 Certified standards.
